Front End Developer • Future Engineers • 12/17 – Current

Built or upgraded all front end, responsive content for FutureEngineers.com (C#/ASP.NET MVC5) site using Razor, Bootstrap, Sass and jQuery.

Drupal Developer • Advanstar/UBM Americas • 9/13 – 6/18

Built and maintained various internal and public-facing, responsive Drupal 6, 7 and 8 sites. Evaluated contributed modules and built custom modules where required. Imported sites from a variety of other platforms into Drupal. Used iBeacon and Twilio via Drupal to provide real-time interactions with attendees at trade shows. Some Python and Perl programming was also required.

Freelance Web Developer • 8/09 – 9/13

Contract services provided for a wide range of nonprofit and private sector companies. Projects included:

- **Sony:** Built a sales application for internal licensing staff using JBoss/JSF/Seam, PL/SQL and Ext.js that interfaced with 12 other active databases.
- **Fox:** Built dynamic front end of Fox Digital Copy (an application which allows consumers to copy a DRM-protected file after checking a serial number provided with the DVD) using C# MVC, Razor and jQuery.
- **Universal:** Built 100th anniversary site using Fuel CMS.
- **Dos Equis:** Built “Most Interesting Person” contest site using C# MVC3, Razor and jQuery.

Account and Project Manager • Crownpeak Technology, Inc. • 11/08 – 8/09

Managed relationships and communication with clients. Led the build phase and ongoing support phases of proprietary CMS product. Trained new staff and developed training documentation.

C# Developer • Comcast Entertainment Group • 1/07 – 11/08

Built and maintained G4TV.com and its custom CMS in C#. Built highly customized components in jQuery and a captioning system using GDI+.

C# Developer • Infotrieve • 1/05 – 1/07

Built SOAP web services and for use by 3rd party vendors. Maintained shopping cart. Reviewed, debugged and integrated code written by contractors and other 3rd parties.

Web Developer • Disney Internet Group • 7/04 – 1/05

Built and maintained several websites for Disney brands using proprietary Disney technology.

C# Developer • McElroy • 11/02 – 7/04

Built and maintained several Nestlé brand websites. Played an integral role in introducing .NET development.

ASP Developer • Agile Software • 09/01 – 10/02

Built several web-based administrative applications as well as the customer facing website using Classic ASP.

ColdFusion Developer • eConvergent.com • 1/01 – 6/01

Built and maintained public website using CFML and MySQL.

Front End Developer • Sparks.com • 11/99 – 11/00

Built and maintained front end of eCommerce website using Java driven XML parsed by XSLT on the front end.
